HOW THE MECHANISM RUNS

Four steps. *Zero* paperwork.

STEP 01

Pay 25 USDT. Once.

From your own wallet. The only payment you ever make — for all 12 levels.

STEP 02

Your table opens: 14 seats

Every seat's destination is written into the contract before you pay.

STEP 03

Two seats buy Level 2

Seats 4 and 5 pay for your next level. Automatic. Free to you.

STEP 04

Seat 14 resets the table

Board goes back to 00/14 and the same table runs again. Finishing is a restart, not an exit.

SELF-CUSTODY

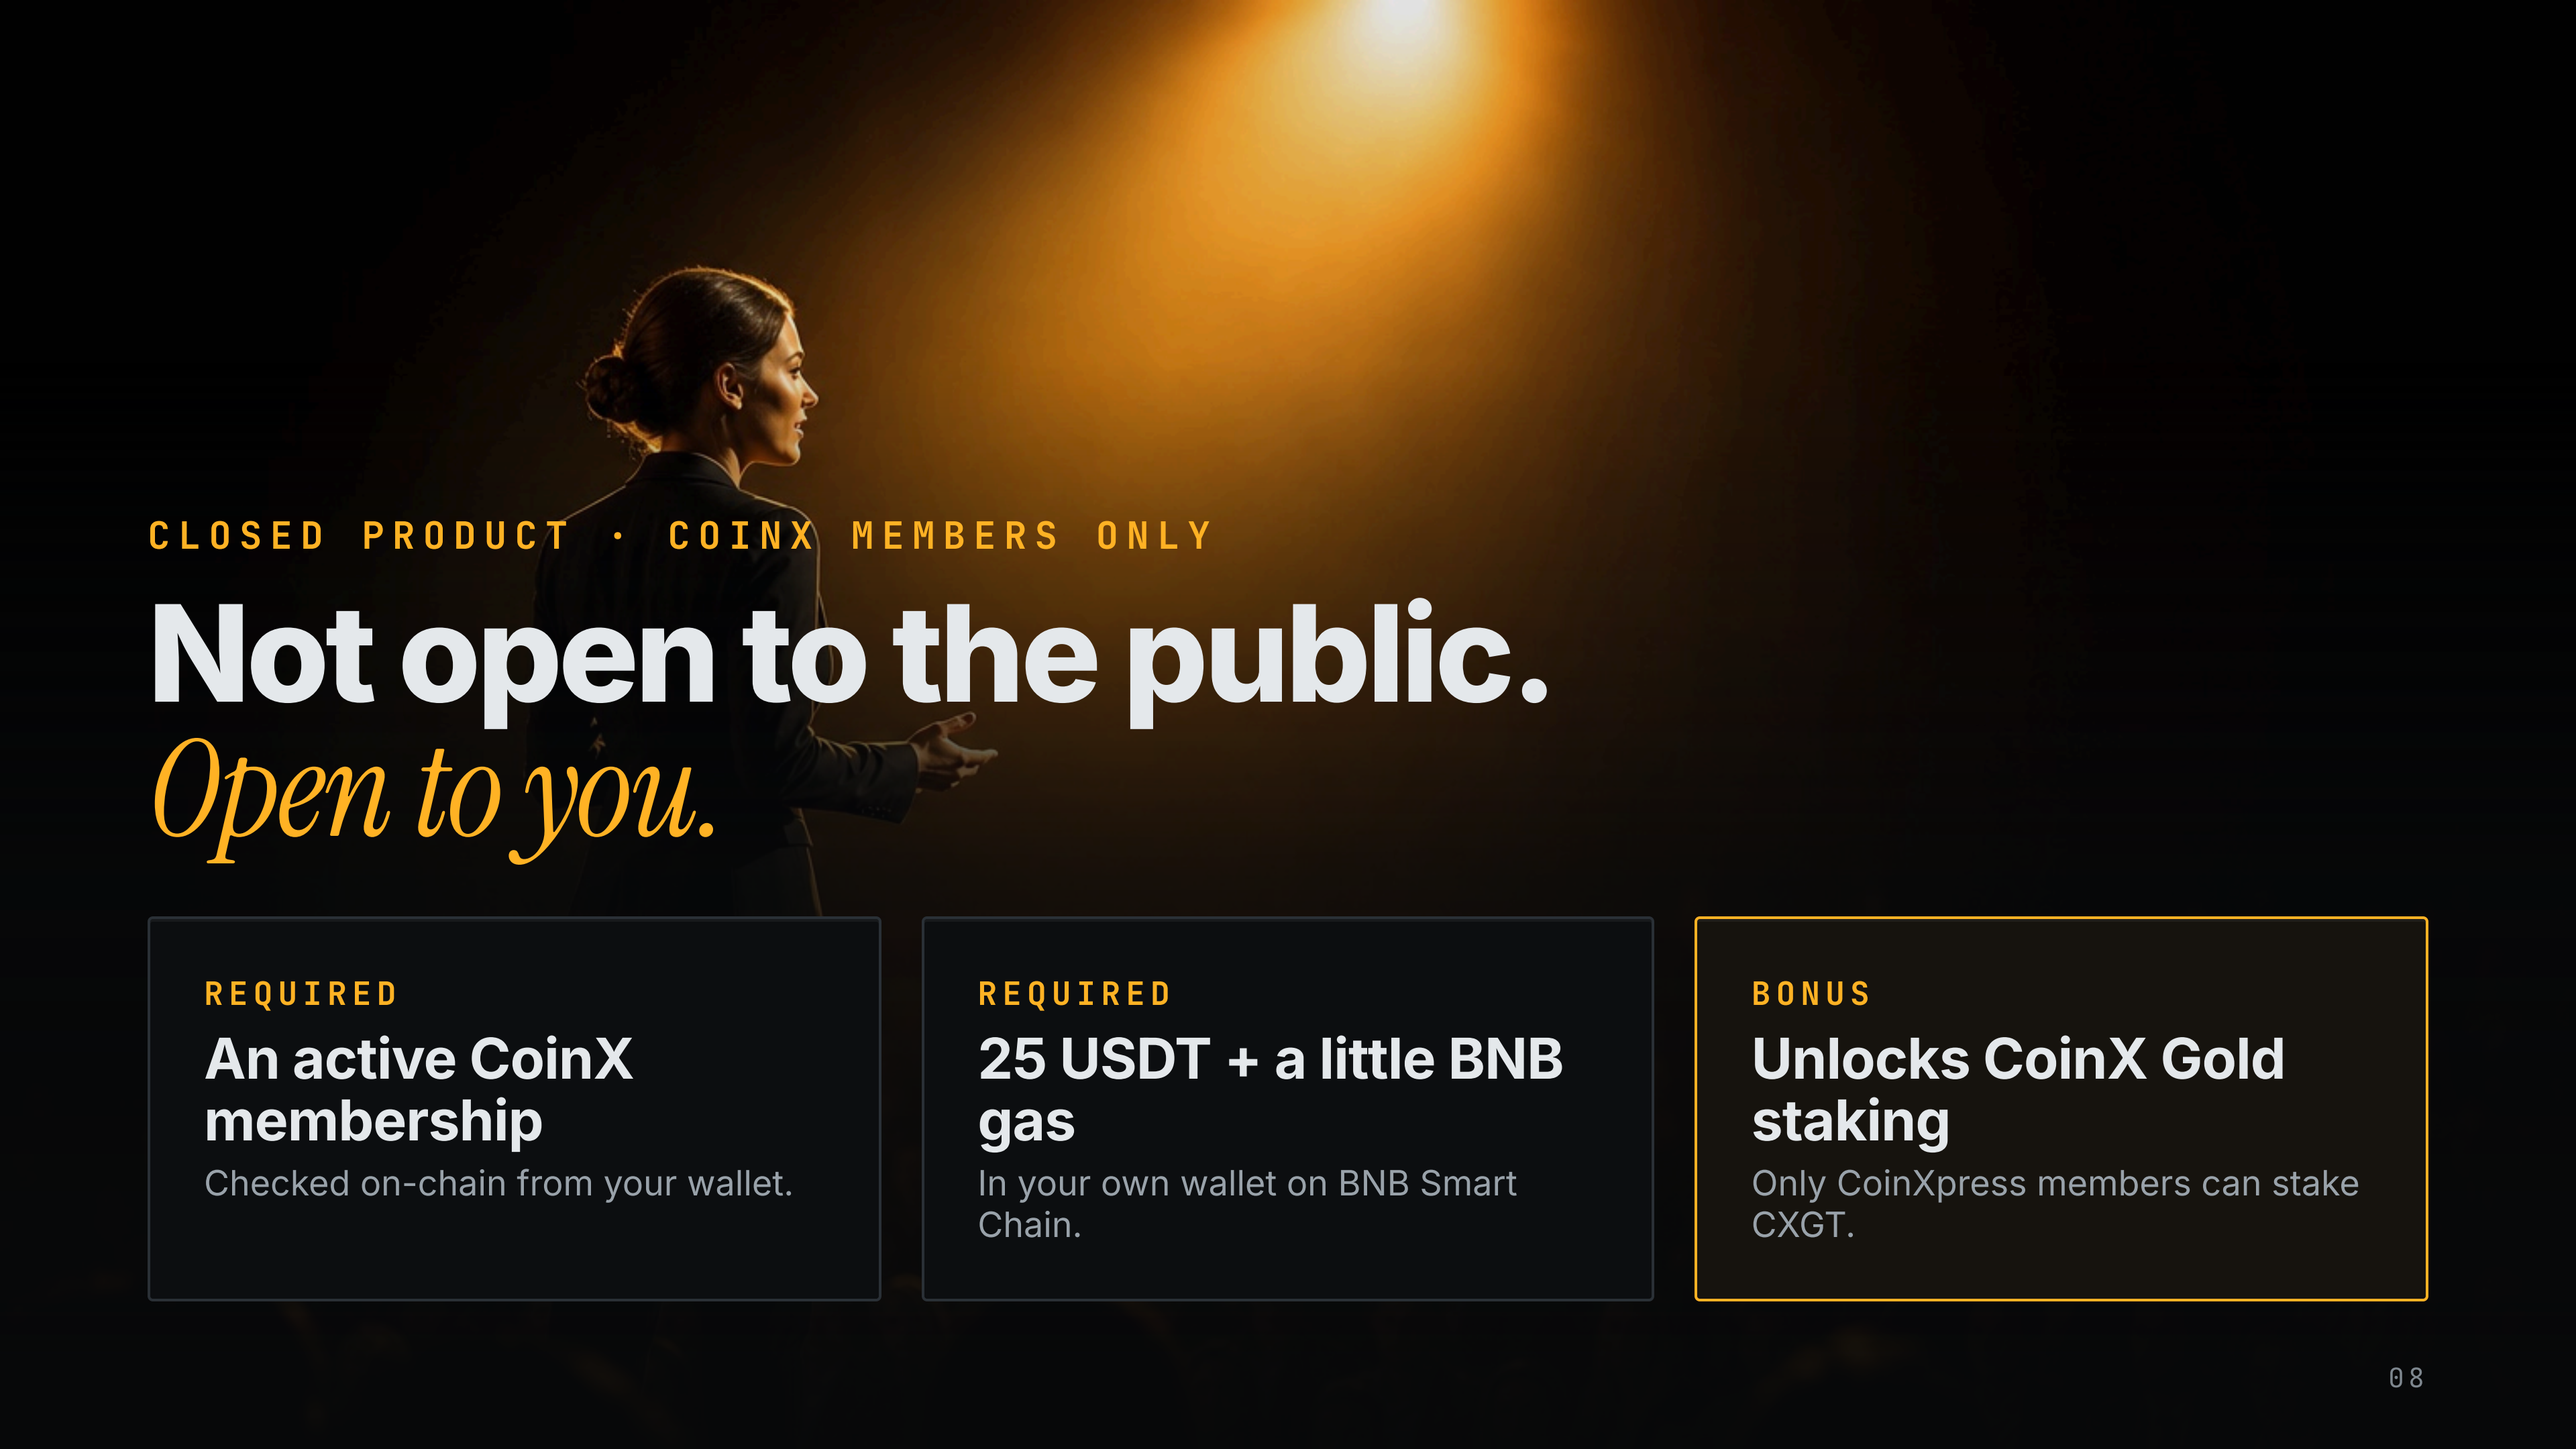

We *never* hold your money.

Paying seats send USDT **straight to the wallet you connect**. No CoinXpress balance. Nothing to withdraw. No account anyone can freeze.

CoinXpress is for existing CoinX members. Earnings come only from seats filled by real people joining; with fewer than 2 direct referrals you earn nothing. Figures shown are what seats pay if they fill — not a promise or a guaranteed return, and nobody, including your sponsor, can make seats fill. Seat 13 funds the CoinX reward clubs and is never paid to members. Self-custody: payments move wallet to wallet on BNB Smart Chain; mistakes such as wrong network or lost keys cannot be undone. Crypto carries risk — only pay what you can afford to lose. Not financial advice. Photos are AI-generated illustrations.
